Networking with local entrepreneurs	<p>Networking is a core part of what we offer to enterprises. We do this in a number of ways:</p> <ul style="list-style-type: none"> - Holding regular events for our community of entrepreneurs. Our visiting enterprises will be able to attend at least three of these – (creative) breakfast, lunch (Sexy Salad), and monthly community evenings, where we provide food and drink and invite enterprises to meet and network. - Holding facilitated networking events: we host almost every week a different meetup in our space and our visiting enterprises will be able to join these events. Special emphasis on green economy, leadership and business development. - Making individual introductions. Impact Hubs are places where we actively 'host' our members, including facilitating connections between our members and to those outside the Impact Hub. Impact Hub Budapest has 60 members and have a wider circle of community with cca. 500 stakeholders.
Networking with other local agents	<p>Impact Hub Budapest is specially established in the business network field. We hold regular meetup events where we introduce entrepreneurs to a wider community, which is followed up by a networking event every time.</p> <p>We can also make individual introductions to:</p> <ul style="list-style-type: none"> - Investors - Other coworking offices in Budapest and internationally (there are 85+ Impact Hubs globally) - Other social enterprise support organisations - Universities - Business incubators - Potential customers

This city becomes full of life and energy in the summer with bicycle parades, summer music & food festivals, and multicultural and international events inspired by expats moving here in the past 15 years.</p> <p>Withing the Hub, we have a community event each week for business networking.</p> <p>The entrepreneurs are also welcome to take part in other Impact Hub organised events for our members, trainings.</p>
