Strong areas of expertise	<p>Areas of expertise: new and renewable energies (solar, hydraulic, biomass, hydrogen), intelligent networks and electricity infrastructures, electricity market, intelligent building, smart cities</p> <p>As a national entrepreneurship hub, the Savoie Technolac Business Incubator-Accelerator Energy & Digital is the biggest one in Auvergne Rhône-Alpes Region with 60 start-ups and innovative SMEs assisted per year and 4,000 m2 facilities, the whole integrated within a technology campus of 120 ha.</p> <p>5 reasons making our community such attractive for companies wishing to expand in France and Europe:</p> <ol style="list-style-type: none"> 1. An integrated incubation and acceleration program "Be Incubated! Be Audacious!" supporting entrepreneurs in launching and growing sustainable global businesses, with the help of experienced professionals, entrepreneurs, mentors and experts 2. A powerful business community with more than 240 SMEs, start-ups and global players such as INES CEA, CIH EDF ENR, ENERGYPOOL as well as University Savoie Mont Blanc, INSEEC and ENSAM PARIS-TECH 3. A privileged access to the world's 3rd largest R&D facility in solar, smart grids, energy storage, smart buildings, energy self-consumption and mobility with our strategic partner INES CEA 4. A strong commitment of local executives from Chambéry Grand Lac backing entrepreneurship and energy & digital transition and offering a privileged access to public infrastructures for companies willing to test their innovate products and services 5. An amazing place to live and work, with French Alps, Lake du Bourget, easy world connections via Geneva and Lyon airports and an amazing international community of 9.000 entrepreneurs, researchers and students. <p>Our team is looking forward to welcome new comers and will endeavor to help them to integrate smoothly French and European business environment.</p>		
Services to be provided			
Mentoring	Savoie Technolac team: Hervé Laurent – Director of Incubator & Accelerator Philippe Croguennoc – in charge of start-ups incubation		
Space and infrastructure	4,000 m2 facilities, the whole integrated within a technology campus of 120 ha. Would the entrepreneur have a free space all day in the center? Only some hours a day? What are the timetables? The entrepreneurs will have a possibility to use on daily basis common co-working spaces available within incubator and itS partner organisations.		
Networking with local entrepreneurs	Savoie Technolac eco-system represents a powerful business community with more than 240 SMEs, start-ups and global players such as INES CEA, CIH EDF ENR, ENERGYPOOL as well as University Savoie Mont Blanc, INSEEC and ENSAM PARISTECH etc. networking activities are held regularly, so that the invited entrepreneurs will have many opportunities to network with different companies and organisations.		

<p>Networking with other local agents</p>	<p>Savoie Technolac Business Incubator & Accelerator provides a specific offering to innovative start-ups and SMEs willing either to discover the French and European markets or to expand their activities in Europe. First of all a holistic business diagnostic is provided by an individual coach, then available on daily basis and providing a customized support and assistance through the whole entrepreneurial process. Besides a personal coach, our client companies benefit from free support from our mentors – senior entrepreneurs and top tech experts in cleantech, energies and smart grids, all issued from our business community (consult a list of our mentors).</p> <p>Then, depending on the stage of our client company maturity we provide the following modules developed with our business partners:</p> <ol style="list-style-type: none"> 1. Be Welcome – an individual office with access to shared spaces and conference rooms in our Incubator “La Base” 2. Be Incubated – support in defining effective business strategy and launching your start-up, choosing the right legal form, training your entrepreneurial potential, masterclasses & practical business experience with pairs and senior entrepreneurs 3. Be Innovative – from idea to proof of concept : living lab, prototyping facilities, access to public infrastructure for testing, lab vouchers and crash tests with top tech experts, IP & cybersecurity advisory 4. Be Funded – tax accounting, risk advisory, private and public fundraising, partnerships with regional banks 5. Be Skilled – staff recruiting and training, team building, HR service and labour advisory 6. Be Worldwide – from lab to market: marketing, business development strategy and tools, small business act (partnerships with public and private entities), linkages to business partners in 15 countries <p>All modules will be available for Spanish entrepreneurs, with a first level diagnosis & advisory for free (4 working hours) with a possibility of a more in depth assistance (from 800€ to 1200€ per day)</p>
<p>Integration Activities</p>	<p>For new comers Savoie Technolac can organise a welcome package introducing Spanish entrepreneurs to the local eco-system, business community and public and private decision makers such as welcome dinner, Savoie Technolac visit</p>
<p>Is there any assistance in finding accommodation?</p>	<p>Savoie Technolac can provide a paying service for finding accommodation.</p>
<p>Other additional services (if any)</p>
