Strong areas of expertise	<p>We would like to welcome 2 projects in the following fields :</p> <ul style="list-style-type: none"> - Robotics - E-Commerce - Healthcare <p>- Robotics</p> <p>VOT has a specific knowledge in this field. In fact, we have welcomed in 2016 a Japanese company, Kawada, specialized in Robotics.</p> <p>Moreover, we already welcome in VOT Robotics companies. For instance, Still Human who develops a vegetal cyborg (this enables a plant to be autonomous in its needs in light, water and energy, position in the room).</p> <p>We welcome in the Val d'Oise department companies specialized in Robotics, laboratories (ETIS), business schools (ENSEA, EISTI, ECAM, EPMI).</p> <p>VOT has settled a comitee in this field called MICMAC Robotics. The aim is to meet academic actors, big business groups, start-up, students, institutions who are concerned by Robotics. This will create collaborations between these actors so as to create a mini-cluster.</p> <ul style="list-style-type: none"> - E-Commerce <p>Val d'Oise Technopole hosts several years companies working in the field of e- Commerce. The latest is My Modalist founded by two graduates of HEC. VOT has developed expertise in supporting this type of project as well as a network of partners specializing in the creation of a Website , marketing consultants, digital communication and payment via the net. Val d' Oise also has a large number of engineering schools likely to intervene on these issues as EISTI the ESCIA but ESSEC.</p> <ul style="list-style-type: none"> - Healthcare <p>The Val d' Oise is part of the Competitiveness Cluster Médicen .</p> <p>Moreover, Val d'Oise Technopole accompanies several years companies specializing in health, such as Acacia France , Hop ID or Safe Orthopaedics.</p> <p>We have large groups on our territory as 3M and the Val d' Oise also has a biology school, the EBI .</p> <p>Like the MICMAC Robotics, we have developed a collective MICMAC on the theme of health ..</p> <p>The quality and importance of relations with VOT tertiary institutions and research laboratories are considerable advantages in terms of the project. We had also experimented with Kawada through contacts made with ETIS. For information, the general manager of VOT is Chairman of the Board of Directors of ENSEA , connecting establishment of ETIS.</p>		
Services to be provided
